

JBC

The Soldering Co.

High-Precision Rework Shop

A complete tooling range

Complete tooling range for high precision

The miniaturization is the trend in the electronic market and components are becoming smaller and smaller.

- High-Precision Rework Shop for **reworking small SMDs** - such as 01005 - follows the worldwide trend of nano solutions.
- Its complete range of tools offers high precision and maximum control - even under a magnifying glass - allowing a **fast and efficient work process**.
- All of the innovations of High-Precision Rework Shop feature JBC Intelligent Heat Management, with Sleep & Hibernation Modes.

NASE
2-Tool Rework Station
The best solution for **soldering and rework of SMT requiring the highest precision**. It works simultaneously with **NT115** Nano Handle and **AN115** Adjustable Nano Tweezers. The short distance from the tip to the handle offers maximum control even when using a magnifying glass.

DPM
Manual Paste Dispenser
Ergonomic Paste Dispenser ideal for SMT rework. DPM is compatible with a **large variety of needles and tips** for the highest dispensing precision.

PHNEK
Preheater Set
The best solution for **rework on small PCBAs, such as the ones commonly used in smartphones**. It features a heating area of 108 x 70 mm / 4.25 x 2.75 in and two TC connections.

PHNE Preheater can be operated easily and conveniently via the intuitive menu navigation and has **matchless reliability in temperature accuracy and control of the PCBA** so that no component is damaged.

RHN
Articulated Hand Rest with base for PHNEK Preheater Set
An indispensable tool for precision work which provides a point of support very close to the working zone, **allowing the stabilization of the pulse rate**.

CDN
High-Precision Soldering Station
Designed for highest-precision jobs in any **micro-soldering application**, offering maximum control working under the microscope. It includes **NT115** Nano Handle.

JNA
High-Precision Hot Air Station
Experience the versatility of JNA thanks to its capacity to **work with a wide range of components**.

Its perfect for reworking SMDs on areas with minimal separation **without affecting nearby components**.

DPM Needles & Tips

NDKS

Steel Dispenser Needle Set

Set consisting of several solder paste dispensing needles with different gauges, from 18 to gauge 30, recommended for solder paste Type 2, 3, 4, 5 and 6.

NDKP

Tapered Dispenser Tip Set

Set consisting of several tapered dispenser tips with different gauges recommended for solder paste Type 2, 3, 4 and 5.
